VS COMPETITORS: Fleetx + Digitify + 3 other apps = ₹34,000–60,000/month = ₹4,08,000–7,20,000/year

Your platform saves the client ₹2,23,400–5,35,400 every year from Year 2 onwards.

Why Choose Custom Over SaaS?

1. **Own your data**

   All trip, finance, driver, and GPS data lives in YOUR database. No SaaS vendor can lock you out or raise prices.

2. **No per-user fees**

   Add 50 users — cost stays the same. SaaS platforms charge ₹500–2,000 per user per month.

3. **Built for Indian compliance**

   VAHAN, Sarathi, eChallan, E-way Bill, GST (IGST/CGST/SGST) — all native. Not bolt-on plugins.

4. **Grows with you**

   Add market trucks, customer portal, multi-branch — your team builds it. No waiting for SaaS roadmap.

5. **Pays back in 8 months**

   Year 1 investment: ~₹1,75,000. Annual savings vs competitors: ₹2,23,000+. ROI in under 1 year.
